

## General information & Technical specifications

Hi there! Since you are reading this, it is very likely that you will be playing at our venue some day soon. The first page in this document contains some general information regarding our venue and the following pages are focused on the more technical stuff.

We are looking forward having you here, and we hope that you will take the time to read these pages, as they should answer your most common questions prior to your arrival. Should you after reading this have any questions, please do not hesitate to email us.

### **Load-in and parking**

Load-in is located at Fredrik Nielsens Vej 2. We have a ramp and a handcart at our disposal to move your gear. Load-in is situated approximately 30m from stage.

### **Backstage**

We have a cozy backstage room which is located – well - back stage. There is one toilet here and no bath. Free Wifi is available. Please ask for password at your arrival.

### **Venue crew**

Under normal circumstances you will be met by one sound engineer and one light engineer. Besides that we have one or two guys or girls, who will be there all night helping you with load-in, coffee, snacks, food, guest lists and so on.

### **dB limits**

We are enforcing a limit of 103 dB(A) averaged over 15 minutes (Leq 15 = 103 dB(A)) Values will be measured at FOH. We use a properly calibrated system ([www.10EaZy.com](http://www.10EaZy.com)). We do not use a peak limiter or circuit breaker, but our house engineer will help reducing the overall sound level if necessary.

### **Smoking**

National law prohibits smoking in public areas, including stage and backstage facilities. Smoking is allowed outside the venue. We kindly ask you to respect this rule, as we did not invent it nor do we want to spend all day acting as bad cops.

### **Drugs**

Studententerhus Aarhus enforces a zero tolerance drug policy. This means that ANY drug is prohibited both inside and outside the venue.

### **Contact**

Production: Jesper [jb@studenterhusaarhus.dk](mailto:jb@studenterhusaarhus.dk)

Tech: Laurits [mail@audioLAX.com](mailto:mail@audioLAX.com)

# Stakladen

Capacity: 700 standing, 350 seated
